REVISED NOTICE OF PROPOSED ACTION Time Extension Granted

By the
State of Nevada
Division of Environmental Protection
Bureau of Water Quality Planning

PUBLIC NOTICE

Pursuant to the Clean Water Act Section 303(d), the State of Nevada is required to develop a list of impaired waterbodies that need additional work beyond existing controls to achieve or maintain water quality standards. The additional work includes the establishment of Total Maximum Daily Loads (TMDLs). The 303(d) List is the basis for targeting waterbodies for watershed-based solutions, and the TMDL process provides the analytical framework to develop solutions.

The Draft Nevada's 2004 303(d) Impaired Waters List is available for review at the Nevada Division of Environmental Protection, Bureau of Water Quality Planning (Room 105), 333 West Nye Lane in Carson City. Copies can also be obtained by contacting the Bureau of Water Quality Planning at the address given below or from NDEP's website at http://ndep.state.nv.us/bwqp/303dlist.htm. An extension of time has been granted for receiving written public comments to be submitted by March 11, 2005. (Original Public Notice of January 21, 2005, had a comment period closing date of February 25, 2005.) Questions or comments should be directed to:
